# The Public Health Digital Library (PHDL)

Your department brings you research information (journals, books, databases) through the Public Health Digital Library.

Find the PHDL at your department intranet.

Users in departments not directly linked to the PHDL can create a user account and login anywhere.

Search your topics in PubMed for relevant articles. Use MyNCBI to find PHDL articles or easily order order articles not in the PHDL. Run and save searches, send results to email or your research group.

**PolicyMap** is your new tool for discovery!

Your easy-to-use mapping tool!

POLICYMAP

With PolicyMap, find and report data on health determinants, outcomes, environment, education, housing and more.

**CABI's Global Health** is a database of public health research with a global scope; research not indexed in PubMed: journal articles, reports, conference proceedings, book chapters, policy documents.

**The Cochrane Library** gathers the best evidence for decision-making: consensus-driven systematic reviews. Public health, clinical, and behavioral topics.

# Ways to access the Public Health Digital Library

Your department's annual fees support the Public Health Digital Library collection and document delivery service.

## How to access full text articles from the PHDL

OF

- 1. From the PHDL Page. If you have details about the article, use the Citation Matcher from the top menu or the bottom of the PHDL Page. You can enter parts of the citation:
  - Title
  - Author
  - Journal
  - Year
  - DOI or PMID

If the article is in the PHDL,	, you are taken	to the full tex	t in HTML or
PDF.			

If the article is not in the PHDL, a pre-filled form will let you order the article through your department's Partner Library. There is no direct charge for your requests.

Citation Matcher							
Looking for a journal article? Citation Matcher lets you search by article title, author, PMID or DOI.							
		Journal	Book				
Use this tool to find cita	tions. In	clude as many cita	ition details as	you can.			
XTUAL SEARCH:
